

SPECIFIC FACILITIES PROVIDED FOR WOMEN

a. Safety & Security

We provide various safety and security facilities in the campus specific which include 24 hour security services. CC TV cameras are installed in front of hostel and college with 24x 7 monitoring services. Resident female faculties are available at hostel to attend to the needs of students. Strict timings for leaving and entering campus are provided for hostel inmates. Fixed roll call registers are maintained. College assures equal participation of males and females in all the activities and all the organizations for both staffs and students.

b. Counselling

Yearly counselling sessions for the first-year students are done to help students cope and understand the professional course. All students facing any sorts of difficulties can avail the counselling facility provided at Pushpagiri Medical College.

c. Common Rooms

Separate common room facilities are available for both boys and girls.

d. Any other relevant rooms

Gym and sports facilities are provided for girls and boys to boost their mental and physical health. Yearly sports meet is conducted to encourage the sportsman spirit in students. Female welfare association has been set up to address the grievances of all the female staff and students. Women work force of dental college were also a part of CANCE, a novel initiative

for the awareness and detection of oral, cervical and breast cancer. Monthly feedback and suggestions are collected from the female students to ensure the complete wellbeing safety of females in the campus. In addition to this, within the college campus, a breast-feeding room is setup to assist feeding mothers. Another innovative program initiated for the wellbeing of both girls and boys is the mentor ship program. It is an actively going program were in 4 to 5 mentees are allotted to each mentor who monitors the academic, physical and mental wellbeing as well as develop a professionalism and stand as a role model for the student.
