- Action Plan For 2021-22

The idea of a dental education unit (DEU) for the college was mooted during the formulation of the five year plan for the college and subsequently the DEU was established in December 2020.

Goals of DEU

- To develop into an educational resource Center that molds a teacher into a competent Dental Educator.
- To enhance the teaching, learning and assessment skills of the faculty member at various levels of educational initiatives.

The main objectives of the Dental Education Unit are to :

- Be responsible for the educational processes
- Ensure continuous quality improvement in teaching learning and assessment in professional education
- Plan, implement and evaluate curricular development and faculty development in the college
- Facilitate educational research through projects, research publication update
- Faculty updated of the current trends in medical education by conducting workshops and conferences.
- Contribute towards policy development, feedback system, assessment, communication skills and humanities
- Develop and implement instructional design for undergraduate and post graduate courses
- Emphasize educational collaboration between dentistry and allied health professions
