Subject: HALITOSIS

Chief coordinator: Dr. Vinod Mathew Mulamoottil

Presenter: Dr. AASHLIN TITUS, DR. ANJU MATHEW

RJ: Kalyani

The Programme 'Pushpavani Arogyam' live radio talk started at 9:15 am. The programme started with a general introduction on the topic Halitosis. After introduction I continued to talk more about the topic in detail. Halitosis its causes, prevention, diagnosis and treatment. There was question answer section in which listeners asked various question about Halitosis.

Through the Programme I was able to make the public aware of the prevention of halitosis. Finally RJ concluded the programme and signed off.

Evaluation was based on:

1. Subject knowledge
2. Speech
3. Voice modulation
4. Confidence
5. Clarity

<u>LISTENER</u>	<u>OBSERVER</u>	<u>PRESENTER</u>
The presenter was confident and clear about the topic. All relevant points about the topic were covered	Knowledge obtained through the talk was valuable and practical	Feeling thankful to the Department of public health dentistry and to Dr. Vinod Mathew for giving me this opportunity.

IKAP SESSIONS

1ST IKAP SESSION 2023-2024 –REPORT

TOPIC: XEROSTOMIA

DATE: 19/10/2023

SPEAKER: DR LISA ELIZABETH JACOB

OBSERVER: DR ANIL KURIAN

COORDINATOR: DR SONAM SULTHANA A .J

DR ANJALI AJAYAKUMAR

The 1st IKAP 2023 was conducted on October 19th on the topic of “**Xerostomia**” by Dr. Lisa Elizabeth Jacob, Senior Lecturer in the Department of Oral Medicine and Radiology, Pushpagiri college of dental sciences. The event was coordinated and conducted by Dr. Sonam Sulthana and Dr. Anjali Ajayakumar, under the guidance of Dr. Vinod Mathew, with Dr. Anil Kurian serving as the observer. The presentation by Dr. Lisa Elizabeth Jacob provided a comprehensive overview of Xerostomia, contributing to the knowledge of the participants.

1ST IKAP - POSTER

The poster is a rectangular graphic with a teal and grey color scheme. On the left side, there is a portrait of Dr. Lisa Elizabeth Jacob, a woman with dark hair, wearing a patterned top. To the right of the portrait, the text reads: '1ST IKAP SESSION 2023-2024', 'Topic : XEROSTOMIA', 'Date - 19/10/2023', 'Time - 1.30 pm', and 'Venue - Auditorium'. At the bottom left, it identifies her as 'SPEAKER: DR LISA ELIZABETH JACOB, SENIOR LECTURER, DEPARTMENT OF ORAL MEDICINE AND RADIOLOGY'. At the bottom right, it lists the coordinators and observer: 'Chief Coordinator - DR VINOD MATHEW MULAMOOTTIL', 'Observer - DR ANIL KURIAN', and 'Intern Coordinator - SONAM SULTHANA, ANJALI AJAYAKUMAR'. A small logo for 'PUSHPAGIRI' is visible in the top right corner of the poster.

The 1st IKAP session on "Xerostomia" commenced at 1:45 PM in the College Auditorium at Pushpagiri College of Dental Sciences with 48 participants. The session began with a silent prayer, setting a reflective tone for the gathering. Dr. Sonam Sulthana A.J, in her introductory speech, extended a warm welcome and introduced the distinguished speaker, Dr. Lisa Elizabeth Jacob. Dr. Lisa, in turn, commenced the session by sharing insights into the etiology and management of Xerostomia, even introducing commercially available medications for Xerostomia. The session concluded with a vote of thanks delivered by Dr. Anjali Ajayakumar, expressing gratitude to Dr. Lisa for her enlightening presentation. The participants left with a deeper understanding of Xerostomia and its management. The session was observed by Dr. Anil Kurian, who noted the seamless flow of the session and the engaging manner in which Dr. Lisa shared her expertise on the topic.

FEEDBAACK FORM OF THE SESSION

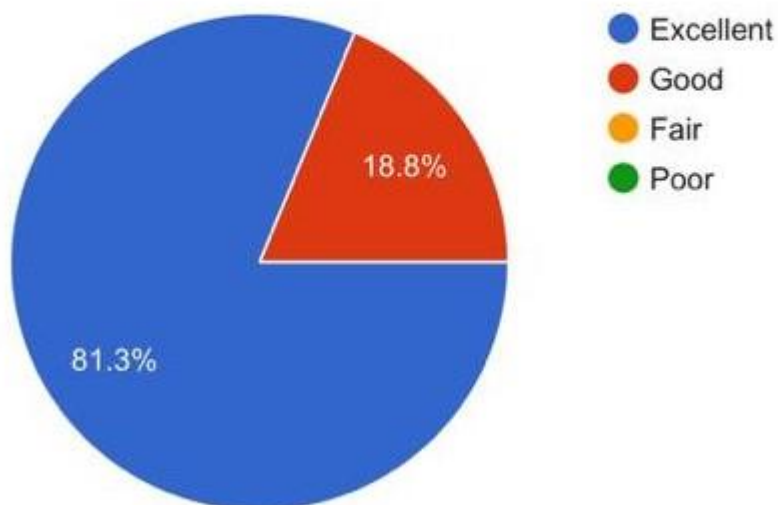

Was the session productive?

48 responses

How would you rate the presenter?

48 responses

Did you understand well about the topic?

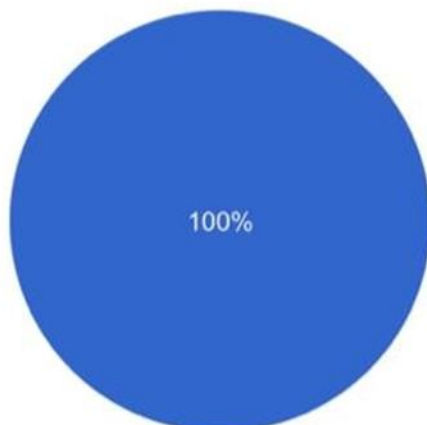

48 responses

● Yes
● No

Are you satisfied with the presentation?

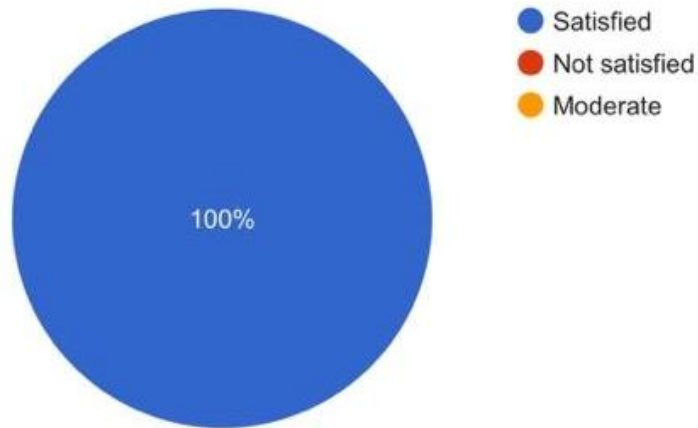

48 responses

● Yes

The 3rd IKAP session on "Differential Diagnosis of white lesions " commenced at 1:45 PM in the College Auditorium at Pushpagiri College of Dental Sciences with 51 participants. The session began with a silent prayer, setting a reflective tone for the gathering. Dr. Jesley Mariam George, in her introductory speech, extended a warm welcome and introduced the distinguished speaker, Dr. Anuna Laila Mathew. Dr. Anuna, in turn, commenced the session by sharing insights into the topic such as commonly seen white lesions of the oral cavity, how to differentiate them, diagnosis, the different stains used for the diagnosis, and its management. The session concluded with a vote of thanks delivered by Dr. Haritha Sreekumar, expressing gratitude to Dr. Anuna for her enlightening presentation. The participants left with a deeper understanding of the different white lesions and their management. The session was observed by Dr. Sheryl Kuriakose, who noted the seamless flow and the engaging manner in which Dr. Anuna shared her expertise on the topic.

9TH IKAP SESSION 2023-2024 REPORT

Topic: Questionnaires in Dental Research

Date: December 28, 2023

Speaker: Dr. Subbalekshmi T

Observer: Dr. Seemanth S

Coordinator: Dr. Sandra Arun

The 9th IKAP session of 2023 was convened on December 28th, focusing on the topic of "Questionnaires in Dental Research," by Dr. Subbalekshmi T, Associate Professor in the Department of Pediatric and Preventive dentistry at Pushpagiri College of Dental Sciences. The event was coordinated by Dr. Sandra Arun, under the supervision of Dr. Vinod Mathew, with Dr. Seemanth S fulfilling the role of observer.

9th IKAP – POSTER

The poster is a blue shield-shaped graphic with a white circular portrait of Dr. Subbalekshmi T in the center. Above the portrait, the text reads "9th IKAP SESSION 2023-2024". Below the portrait, it says "Speaker : Dr. Subbalekshmi T" followed by her title and affiliation: "Associate Professor, Pediatric & Preventive Dentistry, Pushpagiri College of Dental Sciences, Thiruvalla Kerala". The top of the poster features the logos of Pushpagiri College of Dental Sciences and the IKAP organization, along with the text "PUSHPAGIRI COLLEGE OF DENTAL SCIENCES MEDICITY CAMPUS, PERUMTHURUTHY".

Session Overview:

The session commenced at 1:30 PM in the College Auditorium, with an attendance of 41 participants. A moment of silent prayer set the tone for the gathering, followed by a warm welcome from Dr. Sandra Arun, who introduced Dr. Subbalekshmi T as the esteemed speaker. Dr. Subbalekshmi delved into the intricacies of questionnaires in dental research, providing insights into their design, implementation, and significance in advancing dental science. The speaker had used examples to simplify such a vast topic of research arena and was able to convey in the most simple terms how a research is done.

Key Highlights:

Comprehensive Presentation: Dr. Subbalekshmi's presentation offered a comprehensive overview of questionnaires in dental research, enriching the knowledge of participants.

Engagement and Interaction: The session fostered engagement and interaction, with participants actively involved in discussions and queries regarding questionnaire methodologies and their application in research.

Effective Coordination: The session had a seamless flow, contributing to its success.

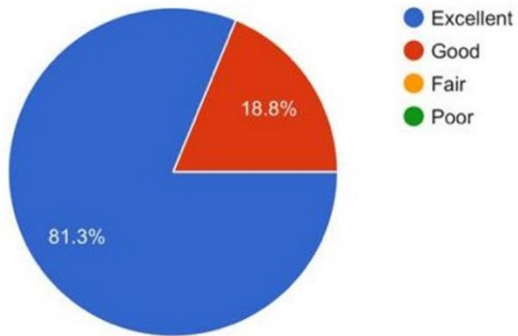

Feedback of the session

A feedback form distributed post-session indicated that participants found the event informative and well-coordinated. The session was followed by a doubt clearing session. Dr. Sandra Arun expressed gratitude to Dr. Subbalekshmi for her enlightening presentation in her vote of thanks. Dr. Seemanth S, as the observer, noted the session's seamless flow and Dr. Subbalekshmi's engaging presentation style.

Conclusion

The 9th IKAP session on Questionnaires in Dental Research proved to be an enriching educational experience, enhancing participants' understanding of research methodologies and their application in dental sciences. Building on the success of this session, future IKAP sessions can continue to explore relevant topics in dentistry, fostering continued learning and professional development among participants. This report encapsulates the proceedings and outcomes of the 9th IKAP session on Questionnaires in Dental Research, reflecting the dedication to academic excellence and knowledge dissemination within the dental community at Pushpagiri College of Dental Sciences

Coordinator:- Dr.DONA MARIA THEJO

The 20th IKAP session was conducted on 14th March 2024 on the topic “Dental Implants” by Dr. Prameetha George Ittycheria, Reader in the Department of Periodontics, Pushpagiri College of Dental Sciences. The event was coordinated and conducted by Dr. Dona Maria Thejo, under the guidance of Dr. Vinod Mathew, with Dr. Namitha Mariam Moncy serving as the observer. The presentation by Dr. Prameetha George Ittycheria provided a comprehensive overview of Dental Implants, contributing to the knowledge of participants.

20TH IKAP POSTER

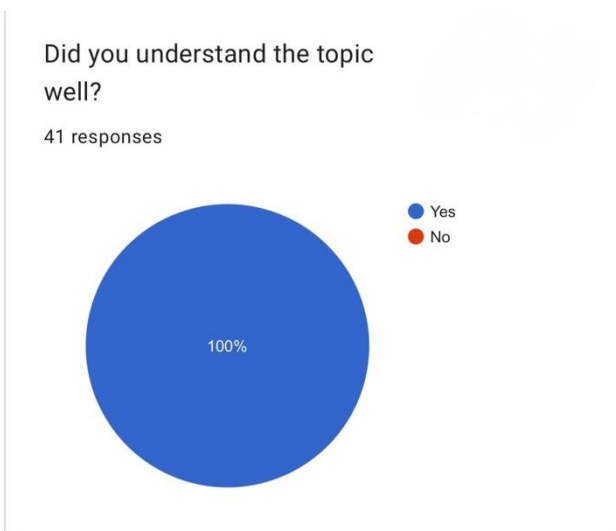

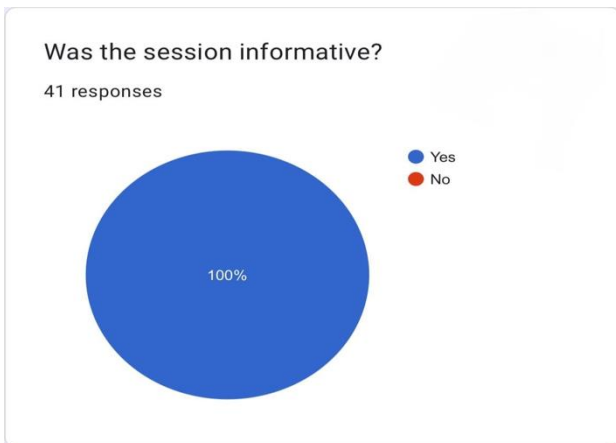

The 20TH IKAP session on “Dental Implants” commenced at 1:30pm in the College Auditorium at Pushpagiri College of Dental Sciences with 41 participants. The session began with a silent prayer, setting a reflective tone for the gathering. Dr. Dona Maria Thejo, in her introductory speech, extended a warm welcome and introduced the distinguished speaker Dr. Prameetha George Ittycheria. Dr. Prameetha, in turn, commenced the session by sharing insights into classification, advantages, disadvantages of implants, case selection and treatment planning, steps of implant placement, surgical challenges and complications of implants. Dr. Prameetha concluded the session with a melodious song.

Dr. Dona delivered the vote of thanks, expressing gratitude to Dr. Prameetha for her enlightening presentation. The participants left with a deeper understanding of the Dental Implants and its importance. The session was observed by Dr. Namitha Mariam Moncy, who noted the seamless flow of the session and the engaging manner in which Dr. Prameetha shared her expertise on the topic.

IGNITE PROGRAM

28th IGNITE SESSION PROGRAMME REPORT

The 28th Ignite session (CDE Programme) was conducted on 4th December 2023 at Pushpagiri Dental College auditorium from 08:30am to 04:00pm in association with the leading dental lab in Asia, DentCare Dental Lab. The topic of the CDE programme was 'Achieving success with Zirconia restorations' and 'Fundamentals of Orthodontic clear aligner treatment'.

All the registered participants are eligible for 6 KDC credit points (Ref.No. : CDE/12764/23/KDC). The session was observed by KDC Observer, Dr. Jose Jacob.

The CDE programme was coordinated under the guidance of Dr. Vinod Mathew.

The inaugural session started with a silent prayer followed by Dr. Rene Kuriakose (Senior lecturer, Department of Prosthodontics and crown and bridge), welcoming and introducing the speakers.

There was a total of 85 participants which included 54 interns, 23 faculty members and 8 post graduates.

A Memento was presented to Mr. John Kuriakose, founder and managing director, DentCare Dental Lab for his contribution towards this session. The Memento was given by Dr. Aby Mathew T (Principal and HOD, Department of Prosthodontics and crown and bridge) and was received on behalf of Mr. John Kuriakose.

The first session was taken by Dr. Abhishek Jairaj, MDS, Prosthodontist. He is a respected specialist in Prosthodontics and oral implantology with over 15 years of experience. He graduated from SDM Dental College, Dharwad and completed his post graduation at the Oxford Dental College, Bengaluru. Dr. Jairaj

has taught in India and Malaysia and worked as a consultant in dental clinics and also serves as a technical specialist with Dentcare Dental Lab, Kerala.

The first session started from 09:30am and dealt with 'Achieving success with Zirconia restorations'.

Then there was a tea break at 11:00 am and the session restarted by 11:15 am.

PCDS BOOK CLUB

GENERAL BODY MEETING

Date :04/09/23

Time: 01:30 pm

Venue: College Library ,7th Floor, PCDS

The PCDS BOOK CLUB was created to expand the college's literary horizons and to promote the sharing ideas between faculty and students. A total of 29 individuals, comprising faculty, interns and students became part of the group.

Decisions taken:

A book donation program for the library.

A designated WhatsApp group for the book club.

A notice board for announcing upcoming meetings and events.

A white board for displaying creative contents.

PCDS LITERARY CLUB ACTIVITY 1- DEBATE

Date: 18/10/23

Time:1.30-3.00pm

Venue: PCDS auditorium

Organized by: PCDS literary club

PCDS literary club first meeting was held on 18/10/23, Wednesday in the college auditorium from 1.30-3.00pm. After a small interactive session we conducted a debate “Converse and Conquer “ on the topic – “Is there a moral obligation to provide humanitarian aid and support to refugees? “. Dr. Minimol K Jhonny and Dr. Anandhakrishnan were present as the judges, Dr. Thomas Abraham as the interlocutor provided a very effective platform for exchanging ideas. This meeting could foster the verbal competence and confidence in its members.

No of participants from PCDS (UG&PG + Faculty) = 12

"TREE TALK: CONNECTING WITH NATURE"

Date: 31.10.2023

Time: 2:00 -2:30 pm

Venue: Medicity campus

Organized by: "Nature club"

The members of the Nature Club convened on campus for a meeting during which they engaged in an environmentally friendly initiative. They planted flowers and other plants in discarded plastic bottles, then hung on trees to promote sustainability and enhance the campus's natural beauty.

WORLD NATURE CONSERVATION DAY

Date: 27.07.2023

Time: 1:30 -2:30 pm

Venue: PCDS Foyer

Organized by: "Nature club"

The staff and students of the nature club generously donated saplings and plants, which were subsequently potted in various locations throughout the college campus. This collaborative effort not only enhances the aesthetic appeal of the college environment but also contributes to biodiversity and promotes environmental awareness among the campus community. The initiative underscores the commitment of both staff and students to sustainability and ecological responsibility.

Old age home visit

Date: 15-12-2023 Time: 8:30 am -1:30 pm Venue: Jeevan Jyothi.

Bethany Ashram ,Thiruvalla

Organized By: "Maithri" - Social Service Club and NSS

Description:

On 12th December 2023, the Social Service Club of Pushpagiri College of Dental Sciences, Thiruvalla organized a visit to Bethany Ashram as part of its community outreach program. A group of students and faculty members departed from the college at 9:30 AM by bus, eager to spend quality time with the 20 elderly residents of the ashram.

The event began with a warm welcome by the ashram staff. Marina Roy, the program's compere, initiated the activities with a cheerful and engaging introduction. The students performed a carol song, spreading the festive spirit and bringing smiles to the residents' faces. This was followed by a cake-cutting ceremony, which added joy and a sense of togetherness to the celebration.

Fr. Aby Vadakkumthala delivered a heartfelt Christmas message, emphasizing the values of love, compassion, and sharing. His words inspired both the students and the residents, reinforcing the spirit of the season. As a gesture of goodwill, the college donated a sum of money to support the ashram's activities and its care for the elderly.

The visit concluded with heartfelt interactions between the students and the residents, leaving both parties with warm memories. The team departed from the ashram at around 12:30 PM, enriched by the experience of giving back to the community.

This visit not only brought joy to the residents of Bethany Ashram but also served as a meaningful lesson in empathy and social responsibility for the students. It was a successful initiative that truly embodied the spirit of Christmas and the essence of service.

FEEDBACK FROM STUDENTS

Joanna:

The students wellness program was a really helpful and informative program that helped me to learn and understand about how I could manage stress amidst the busy and tight schedules that we have. We had a very interactive session with our mentor Lal sir who was very keen on knowing and understanding our problems. He made sure each one of us were comfortable which formed a good rapport between us. One of the things he said that struck

me was, not adjust to a situation instead understand the situation and learn to deal with our problems. The session ended quite early due to time constraints, however it was a very well conveyed and conducted.

Liz:

First of all, I would like to thank our teachers for organising such a wonderful session for us. Our group session was led by Sir. Vijaylal. After the initial introduction and enquiry about our daily troubles and hardships, he asked us about the things we do to outlive these stresses. There, he focused on the need for a good sleep, and it's benefits. Sir told us to have a positive mindset and to focus on our hobbies or talents when feeling down. Lastly and most importantly, he said that we will face a lot of challenges in the future, and during those times, we must learn to understand rather than adjust to those situations. All in all, it was a pleasant and uplifting session.

Josna :

I had a wonderful experience during the student welfare session. Sir guided us into understanding the circumstances we are in rather than adjusting to it. He enquired each of our problems. He even gave us tips on studying such as dealing with easier subjects on the first go and sparing time for tougher subjects later on. Thank you so much Sir for your guidance.

Archana :

It was such a wonderful short session about stress relief. interactive session was so helpful.

Abhijna:

The session was very helpful and helped us in stress management and how to overcome study related issues. It was a fruitful session. We inquired about how to study more effectively and it was helpful too.

Angel:

The student wellness program was a very essential thing through which we got to think

about our reasons for stress and many stress-controlling methods. The team supported and uplifted our minds.

Kezia Mariam George (Leader- Group 3)

In the recent years, celebrities and influencers are opening up on stress, anxiety and depression they have been facing. This has eventually led Mental Health to be a factor that is gaining quite a lot of attention in the recent years.

The team for Student Support Cell headed by Dr. Elizabeth Joseph and managed by Dr Sunu Alice Cherian recently partnered up with the Psychiatry department of Pushpagiri Institute of Medical Science and Research Centre to host a Mental Wellness session for 1st Year BDS Students. The session was led by Dr Roy Kallivayalil and his team of dedicated doctors. The class enlightened our knowledge and understanding on Mental Wellbeing. Post the main talk, we were divided into groups of four.

The leader of Group 3 and the session was led by Dr Soumya P. Thomas. We had shared with Dr. Soumya on the challenges we have been facing in our academic life and sought her suggestions on how to sail through our academic life with ease. Doctor put forward effective and practical solutions on how we can effectively tackle every difficult situation. The session was insightful, encouraging and productive. This golden opportunity has definitely helped to broaden our understanding on various factors that can be adopted to take care of our mental wellbeing.

Mithul Pappachan

The Student wellness program was led by the psychiatry department of PIMS. It had been a good class on stress management. The group discussion helped everyone to share their worries and thoughts. Many ideas were shared by Soumya mam to overcome stress and how to solve the difficulties in studies. Time management was another topic which was discussed in the session. All the students were thankful for this opportunity as it was very much needed.

Tania Thomson

After getting into the new phase of our life we expect more, fear more and have more stress too, but through the wellness program I could speak out my problem without anyone judging

me. The doctor who was appointed to us was a really good listener who taught us not to live on others expectations but rather on our own and also that time will solve every problem.

Nandana Gopinath

The students' wellness program conducted was really helpful. I'm really glad that they incorporated this kind of awareness class on stress, responsibility, anxiety and all in the early days of our campus life. I think as we are facing our first internal exams next month it was really helpful to know about regulation of stress while studying, importance of small breaks during long study sessions, also management of time. The group wise discussions were so beneficial as we were also able to hear our friend's problems and solutions. Overall, the program was wonderful and made my take on stress different. Thank you Pushpagiri College for this amazing opportunity.

K. Afsiya

The session which was organised by student welfare association was an effective one. Some of the students raised their questions on how to study effectively with time management for that Sowmya mam from psychiatric department put forward various measures that we could include in our studies which we felt really helpful. The objective of the session was on how to deal with stress, after the program I felt relieved and thought of adding the new tips to my studies. They made us understand on the fact that studies is not actually stress but it's our responsibility.
